**BRIDGE REPAIRS ON INTERSTATE 89 IN SUTTON**  
***WILL REQUIRE LANE RESTRICTION ON NH ROUTE 114***

The New Hampshire Department of Transportation announces bridge structural steel repairs will take place at the I-89 northbound and southbound bridges over NH Route 114 in Sutton. The work will require single lane traffic on NH Route 114, which is scheduled to begin Monday, September 10, 2001.

A New Hampshire Department of Transportation crew will restrict traffic on NH Route 114 to a single 14-foot wide lane starting September 10. The restriction is expected to continue approximately two months until the work is complete.

Plans are to use stop and yield signs, barrels, and concrete barriers to guide vehicles through the work area. Occasional daytime lane closures may also be necessary on I-89 throughout the project. In the event of adverse weather, the start of the lane restriction may be delayed until the next suitable workday.

Motorists traveling on NH Route 114 in Sutton are asked to use caution when driving through the work zone, as workers and equipment will be present. Minor delays may be expected.
